

A CXP GROUP COMPANY

# **Market Vision: Key Market Trends in Germany 2017**

Reply Wood Meeting, Florence, November 26, 2016

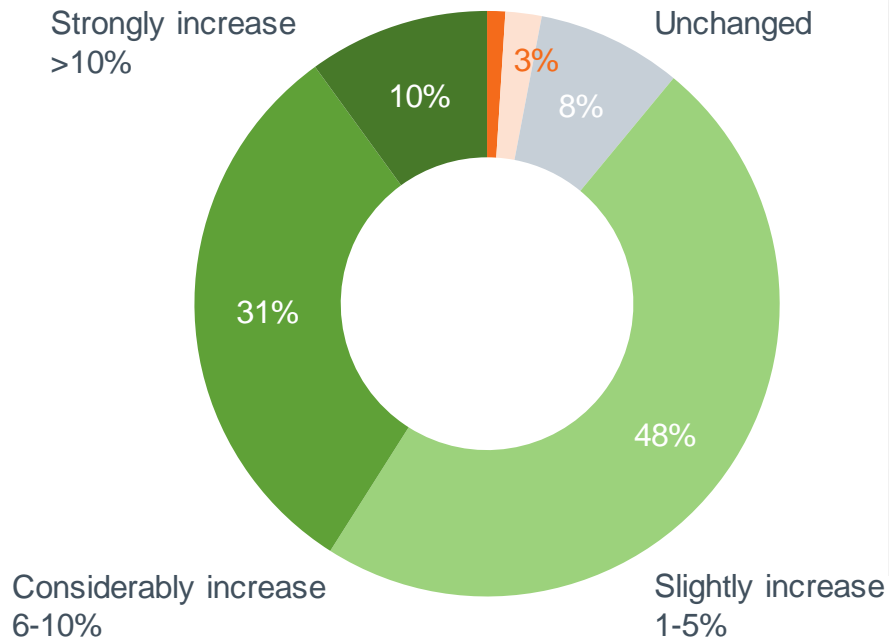

Nicole Dufft, Independent Vice President Digital Enterprise

# German IT growth remains strong

# German IT budgets will continue to grow in 2017

Compared to 2016, how will your local IT budget change in 2017?

# IT Security Remains on Top of the Agenda (German Angst) Followed by IoT (German Engineering)

# Growth topics still smaller in volume but provide for significant opportunities

# Germans are – finally – becoming more open to Cloud solutions

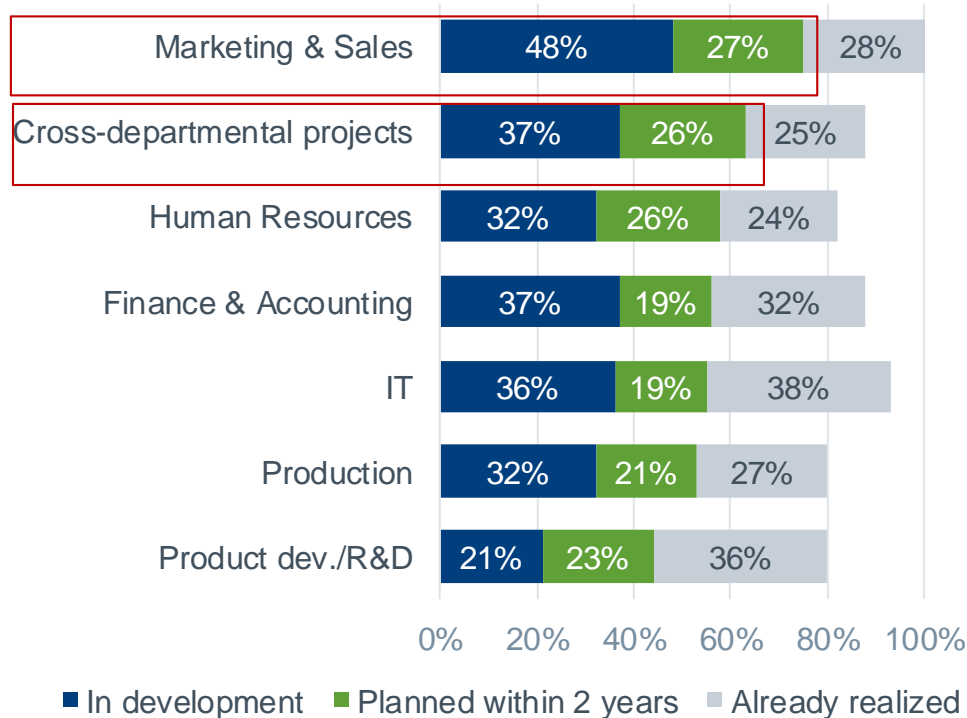

# This has significant impacts on providers

# Big data is becoming a company-wide topic – marketing & sales in the lead

Big data projects by LOBs

## Companies have a zoo of different systems that collect & analyze data

---

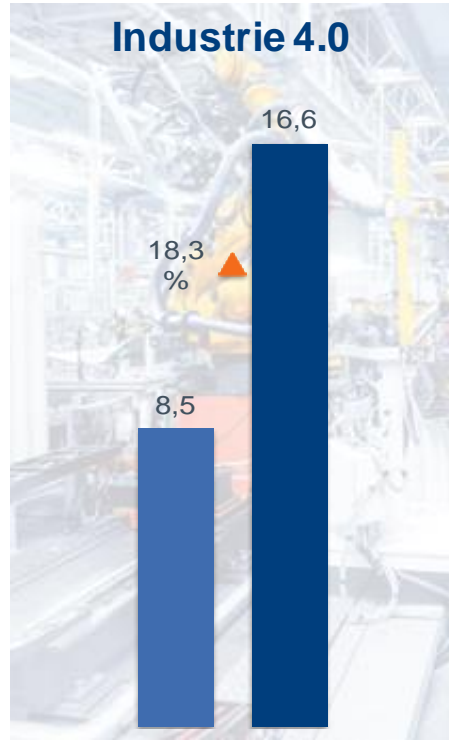

This is counterproductive to providing an integrated, 360° view of the customer.  
Focus on data integration will be key.

# Germany is one of the forerunners of IoT in Europe

# Strong focus in Germany on Industrie 4.0

2015

2019

CAGR 2015/19

# Smart Digital Ecosystems are a strong driving force

# Digital CX Transformation: highly relevant and growing

# Companies need Partners with holistic consulting capabilities!

---

# All Providers are enhancing their capabilities beyond their core expertise – often through intense M&A activity

# A new breed of digital transformation service providers with holistic capabilities is emerging

# How to stay ahead of the curve?

# Most large players are missing the workstyles as well as the cultural preconditions for agility & continuous innovation

---

# Work styles & approaches

- Future vision test grounds & innovation labs
- Multidisciplinary co-innovation teams
- Design-centric
- **Agile frameworks, sales & contracting models**
- Ecosystem & collaborative business models

# Cultural Preconditions for agility & innovativeness

- Culture of empathy & mutual trust
- Small autonomous teams
- Fast decision making
- Open to risk & failure
- Sharing & collaboration
- Strong common vision and purpose

## Need for speed: Enable your customers to deal with exploding velocity of change

---
